

FK-Series

**FKS-Series
Stainless steel pump**

▲ Features

1. Close-coupled design , small size, space-saver, high efficiency, easy maintenance.
2. Adopt high quality Mechanical seal, to ensure no leakage and extend life time.
3. Semi-open impeller design, suitable for sewage , waste water, sludge drainage.
4. Great suction ability(Max.5M). Free install bottom valve. After initial priming water inside pump , the pump will auto-exhaust the air.
5. FKS Pump body/impeller/shaft are stainless steel material for better corrosion-resistant .

▲ Applications

Agriculture irrigation, transfer underground water, waste water treatment, water supply for factory, wastewater drainage in construction site.

▲ Operating conditions

1. Liquid temperature: 0~60°C
2. Ambient temperature: Max.40°C
3. Working pressure: Max. 10 kg/cm²
4. Suction lift: Max.5M
5. Solid passage: Max.5MM

▲ Motor Spec.

1. Voltage: 1 or 3 phase
2. Frequency: 50HZ
3. Enclosed class: IP54
4. Insulation: B or F
5. Enclosed Fan cooled, 2Pole motor
6. Built-in motor overload protector

▲ Main parts & materials

No.	Part Name	Material	
		FK	FKS
1	Pump Casing	FC200	SUS304
2	Impeller	FC200	SUS304
3	Mechanical Seal	Ceramic/Carbon/NBR	
4	Shaft	SUS420	
5	Motor Shell	Cast Iron	
6	Motor Coil	Copper	
7	Bottom Base	Steel	
8	Inlet Flange	FC200	SUS304
9	Outlet Flange	FC200	SUS304
10	Motor Fan	PP	

Ⓢ Mech. seal (SIC) material is available upon request.
